

platens.com

You think of them as heating platens.

We consider them lifetime achievement awards.

Since 1954, Custom Engineering has grown to become one of the world's largest suppliers of precision machined platens. And we're still at the top of our game.

- ▶ World's largest manufacturer of replacement platens for the Forest Products industry
- ▶ Manufacturer of new platens for all board presses—foreign or domestic
- ▶ Leading designer of special applications for steam, hot water or hot oil heating
- ▶ Engineering and design for press rebuilds
- ▶ Vented platen specialists
